** AUSTRALIA [and non]. 10125 USB, Aug 16 at 0634, JBA phone ham QSO seems English, presumably Aussies, again showing up like last year, but could never catch an ID. It seems only? VK authorizes phone on the 30m hamband. Also on 10125 CW, the usual HK3QQ COLOMBIA with his corrupt keyboard letter sequences (Glenn Hauser, OK, WOR)

** AUSTRALIA. 15460, Aug 18 at 1350, Reach Beyond Australia the SSOB with `Message of Hope`; 1359 s/off to return at 1200, or 17:30 in India, bit of kookaburra and off 1400*. Per EiBi it`s multilingual, the only English 1345-1400 daily, and 1245-1300 days 1345 only = Mon/Wed/Thu/Fri (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Aug 18 at 2200, no signal from RNA/RNB as I am tuning up to check Turkey on 11785. So much for `A Voz do Brasil`.

Still no 11780 signal into PU2GUN Goiânia remote, UT Tue Aug 19 at 0151 as the token English is already underway, but S9+5/15 on 6180. 0152 already credits for English & Spanish; 0153 RNB IS English outro, Portuguese ID, Spanish with accents, about 50th anniversary of RNB starting in Portuguese then Spanish translation, documental about Parque Rodeador site, evidently rerun; 0158 back to credits already (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Aug 20 at 2204, still no signal from RNA/RNB direct, keeping company to no signal from Turkey on 11785, q.v. (Glenn Hauser, OK, WOR)

** CANADA. 990, Aug 16 at 0704 UT, am not hearing CBW, normally audible at night but varies a lot due to QRM and auroral, rather a CBS station, see unID. Because Andy Reid reported Aug 15: ``I have been noticing an absence of 990 CBW Winnipeg overnight in Southern Ontario for over a month. Usually it makes its presence known. Has anyone else noticed a lack of signal?`` Anyhow, circa 18 UT, CBW is certainly not off the air into Wpg remote (Glenn Hauser, OK, WOR)

** CANADA. 990, Aug 18 at 0503 UT news in English including wildfires in Nova Scotia, so likely CBC via CBW Winnipeg. Hardly solid with lots of QRM, fades. Suspect is underpowered despite clear-channel 50/46 kW non-direxional status. Otherwise, it`s our best chance to hear CBC Radio One, much more so than 540 CBK or any other (Glenn Hauser, OK, WOR)

** CANADA. 990, Aug 19 at 0657 UT, item from NHK World, Japan; 0702 CBC News Washington correspondent; weak & tough copy vs QRM but evidently CBW Winnipeg underpowered (Glenn Hauser, OK, WOR)

** CANADA. 6754 USB, Aug 18 at 0450, CHR, Trenton Military, with aviation weather for Trenton itself valid Aug 18 0000z to Aug 18 2400z. Altho I don`t have patience to monitor an entire loop, at random chex I`m not hitting any ``no report received``s now (Glenn Hauser, OK, WOR)

** CHINA. 13690, Aug 20 at 2211, music, hymn? S9+10 with heavy flutter and Doppler flutter. EiBi & Aoki agree it`s CRI Spanish for Europe from Shijiazhuang site, which is just SW of Beijing. HFCC shows 500 kW at 315 degrees (Glenn Hauser, OK, WOR)

** CHINA. 21800, Aug 17 at 0144, Chinese S7/S9 with Doppler flutter, OSOB, no doubt jammer vs Sound of Hope, at 2300-1400 per Aoki; except for Denmark on 11m, highest frequency listed. Also JBA carrier on 18970, no doubt the same at 22-10. Also at 0148 carrier only on 15916; if on 15920 could be another SOH jammer (Glenn Hauser, OK, WOR)

** CUBA [and non]. 870, Aug 16 at 0712 UT, whooper or rather squeaker under WWL, and not under WHO at this time (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1040 kHz, Aug 14 at 0643 UT, WHOoper under WHO; not now on 870 or anywhere else during MW bandscan (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1040 kHz, Aug 19 at 0654, whooper under WHO and no others at this time, not even 870 under WWL (Glenn Hauser, OK, WOR)

** CUBA. 1141 kHz, Aug 16 at 0656, het upon 1140s, presumed Cuban (Glenn Hauser, OK, WOR) See also UNID 1431

** CUBA. 4765, Aug 17 at 0133, R. Progreso music not off the air, S9+20/30; while 5025, R. Rebelde at 0134 is nothing but a JBA carrier. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, Aug 20 at 0627, JBA carrier, presumably all that`s left of R. Rebelde; something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 6000, Aug 15 at 0551, RHC S9+25 but suptorted, drama with dialog in English - like soundtrack from a TV show or movie, wrong satellite feed into transmitter or thumbing nose at Habana HQ? This happens frequently. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. ``Regarding the loggings of Cuba on 6000 kilohertz, I do notice that more often than not they seem to be relaying Cuban television. However the last time I did hear anything that sounded like proper RHC content, was on the 12th of August at 0300 UT when I did hear what sounded like the Cuban National anthem. I must admit however that I did not hear a proper station ID at that time, so perhaps the anthem was being broadcast on TV
Tony Pavick, Hope BC`` (via Glenn Hauser, OK, WOR)

** CUBA. 6000, UT Mon Aug 18 at 0449, RHC S9+30/40 but suptorted. After straining for about a minute, I decide it`s Spanish instead of English, as RHC claims to run both at same time on 6000 (Glenn Hauser, OK, WOR)

** CUBA. ``As a follow up to my post about RHC relaying Cuban TV audio on 6000 khz once again last night, I have posted an air check of 60 minutes from 0210 UT forward.
http://popshopradio.ca/20250818_0210_UT_6000_khz_Cuba_R_Habana_Cuba_(non)_TV_audio.mp4

Once again I believe this is from their channel Multivision, although what I heard doesn't seem to exactly match up with their program Schedule.
https://www.tvcubana.icrt.cu/cartelera-de-la-tv-cubana/multivision

I noticed that many of the comments to the channel at the web page seem to be complaining about no audio or audio and video being out of sync. Nonetheless this channel seems to be one of the most popular in Cuba, possibly because it rebroadcasts TV series and movies from the United States.

One has to wonder why this would be on shortwave in place of regular programming from RHC. I'm not sure if this is also being heard on medium wave. Is it possible that it is actually being used to backfill in places where people are complaining about having no audio on the TV signal. Could it be that RHC has absolutely no new programs available. and are back filling with this audio just to keep the transmitters up and going. Could it be that the link between the RHC studios and the transmitter site at Quivicán/Titan operator just simply likes

Multivision.

No matter what, just something to document for the history of Radio Cuba. Tony Pavick, Hope BC`` (via Glenn Hauser, WOR)

** CUBA. 13780, Aug 20 at 2212, RHC S9+10 in Spanish, modulation breaking up a bit, ``Nuestra América`` newscast; and 15230 is off. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15230, Aug 18 at 2203, RHC S9/+10 and suptorted, probably Portuguese since not // 13780 in music, but that drops to JBA level. Somethings always wrong at RHC. I see Aoki still doesn`t have RHC on 13780 (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, Aug 18 at 1415, R. Martí VG tho only S5/6 on meter with `Café Digital`, about holographic television and other topix with rock music breaks. Very rapid pace but I`m pleased to understand almost all of it tnx to excellent clearly enunciating announcers. Not about Cuba in particular; could well qualify as a VOA Latin American service. Also slightly weaker on 11930, 11860 (Glenn Hauser, OK, WOR) See also very next item

** EAST TURKISTAN [and non]. 9580, Aug 17 at 0122, CRI English discussion with decent modulation! via CUBA, S9+30/20. Later at 0146, same programming // on 17640, 3 or 4 seconds ahead of 9580; and synchro with 17640 on 13640 at 0149. Both those via Kashgar (Glenn Hauser, OK, WOR)

** GERMANY. 6070, Sat Aug 15 at 1704, Uncle Bill`s Melting Pot via Channel 292, with one of Tom Lehrer`s greatest hits, then into Syrian music as previewed; another Lehrer at the end 1756. S9+20 into DL7APJ remote, better than UTwente. Slight CCI when there should be none, certainly not CFRX at this hour. Maybe crossmod at rx. HFCC shows 6070 as a JIC/MIC channel from Yamata, Japan; possibly reactivated in rotation. Further repeats of UBMP: Fri 2100 on 3955, Sun Aug 17 at 1700 on 9670 eastward (Glenn Hauser, OK, WOR)

** MEXICO. 1190, Aug 18 at 0433, ``vacúnase para Chihuahua`` PSA, therefore XEPZ, Ciudad Juárez, as I suspected during previous SS log. IRCA says 1000/250 watts, ``Máxima 99.1, Tu Estilo de Vida`` (Glenn Hauser, OK, WOR)

** NETHERLANDS [non]. 7570, UT Sun Aug 17 at 0140, WRMI with ``Mighty KBC`` ID, S9+20. But WRMI skedgrid shows it`s supposed to be at 0200 UT Monday on 7570 System K, among several other times and frequencies. Something`s odd at Okee (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, Aug 17 at 0124, pirate music S9+20/30 direct. Later: ``Drunken DJ Radio on 6950 khz USB. Reportedly the DJ's birthday! With some SSTV and cool tunes
http://popshopradio.ca/20250817_0212_UT_6950_khz_North_America_Drunken_DJ_Radio.jpg

Signal improved over time with music fair and voice fair to poor: 2 and a half hour aircheck:
http://popshopradio.ca/20250817_0210_UT_6950_khz_North_America_Drunken_DJ_Radio.mp4

SSTV in addition to the 1 that I previously posted
http://popshopradio.ca/20250817_0230_UT_6950_khz_North_America_Drunken_DJ_Radio.jpg
http://popshopradio.ca/20250817_0314_UT_6950_khz_North_America_Drunken_DJ_Radio.jpg
http://popshopradio.ca/20250817_0332_UT_6950_khz_North_America_Drunken_DJ_Radio.jpg
Tony Pavick, Hope BC Canada`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6855 USB, Aug 17 at 0125, pirate music S9+10/20 direct. These say it`s WDEF:
https://www.hfunderground.com/board/index.php/topic,148805.0.html

(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6850 AM, Aug 17 at 0126, pirate music, S9+10/20 direct. Other reports only as unID at 0113-0126: https://www.hfunderground.com/board/index.php/topic,148811.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6955.13 AM, UT Mon Aug 18 at 0452, dead air then music and ``glorious independent sideband AM stereo``, but I can`t copy axual ID; then same announcement by YL in German. 0454 mentions ``ten dollar whore``, music with heavy beat; S9+10/20. Of course I`m not set up to copy ISBs separately. Stern Radio says it`s them after reports heard in Alaska, South Carolina: https://www.hfunderground.com/board/index.php/topic,148885.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475 AM, Aug 18 at 0458 Station YHWH JBA with the recognizable intonations of Josiah (Glenn Hauser, OK, WOR)

** OKLAHOMA. 960, Aug 16 at 0704 UT, KGWA Enid is OFF! Wish I had noticed earlier. But still on 100.9 translator: how can that be, no AM to ``translate``?? 960 still off at 1812 UT: must be something serious. So what else can I hear now on 960? See U S A. Hope still AWOL tonight (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 960, Aug 17 at 0128, KGWA Enid still/again OC/DA, S9+40; but modulating at next check 0149 plugging a new app to get their 100.9, KOFM 103.1 and something else other than 960 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1170, Aug 17 at 0306 UT, KOTV Tulsa in deadair except for somehum, but remodulating by 0308; meanwhile its IBOC noise remained hashy peaking 1157 & 1183 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1210 kHz, Aug 17 at 0305, Five-State Big Talker, KGYN Guymon blasting in obviously from my angle on ND day pattern of 22 kW failing to protect WPHT, frequently but not always the case (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1640 kHz, Aug 19 at 0646 UT, local KZLS Enid is OFF! See U S A for what else I heard; by 1530 UT next check, KZLS back on running 2 seconds behind // 1390 KCRC with stupid sports talk (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1680, Aug 20 circa 1945, still pop music, presumed Virtual DX Radio low-power relay. It`s always there whenever I be near enough roughly once a week (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 87.9, Aug 20 about 1925 UT, deadair in $tereo from short-range neighborhood signal, perhaps idle RF feeder perhaps vehicular (Glenn Hauser, Enid, WOR)

** PERU. 4810, 4820, 4955, Aug 17 at 0133, JBA carriers direct, the last weaker than 4940, no doubt the usual Peruvians none of which are there later at night (Glenn Hauser, OK, WOR)

** ROMANIA. 17580, Aug 15 at 2055, RRI signing off the 2030 to NAmericaEast, plugs next transmissions, 2055 IS five+ times to 2057*. S9/+10 into Maryland SDR; I need to check how well this arrive direct. The next English at 2200 on 9740 is a JBA carrier, intended for W Europe, needs to be higher to reach here. Suspended 11800 would be a bit better (Glenn Hauser, OK, WOR)

** ROMANIA. 13580, Aug 18 at 0514, music, French, S9+10 with heavy flutter; it`s RRI Tsiganeshti at 0500-0527 (Glenn Hauser, OK, WOR)

** SCOTLAND [non]. 5850, UT Sun Aug 17 at 0136, classical piano music S9+40 from WRMI. That would be `Encore` toward the end of its biweek run, heard whole thing last weekend. I really enjoy Brice Avery`s selexions of familiar and unfamiliar music (Glenn Hauser, OK, WOR)

** SPAIN. 17715+, slightly on plus side as usual, Fri Aug 15 at 2158, token English from SNR, S9+20/30 direct, much stronger even than 17525 WMLK. Weak 15390 also audible, but 15500 & 15520 are OFF. 2200 open English, preview something about a palacio in Madrid, Canary Islands, no news. I can`t fully understand Marilyn Quintana with her accent (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+20/30 and much weaker 15390 direct, while 15500 & 15520 are still OFF, Mon Aug 18 at 2200 and later, REE stays in Spanish, NO English! as originally M/W/F at this hour. To be expected, as Alan Roe warned us earlier at 0703:

``Maybe no REE English this week? I have just noticed that the REE daily programme schedule for this week
https://www.rtve.es/play/guia-rne/radioexterior/
is not showing any English programming at all. I seem to recall a few years ago that the English service took a "holiday" break at around this time (I think that was during the time that Justin Coe was the only presenter on the English service). However, I wonder if this is connected to the "new season" of programming recently announced by Marilyn whereby, starting 1 September, English will only be heard once a week on Wednesdays? Alan Roe, Teddington, UK`` But still in French after 2230 (Glenn Hauser, OK, WOR)

** SPAIN. 17715 and much weaker 15390, Aug 19 at 2200, REE here but still absent from 15500 & 15520 on a non-English Tuesday.

What about this Wednesday & Friday? ``Alan Roe, Teddington, UK
https://www.rtve.es/play/guia-rne/radioexterior/ currently shows the next English transmission on Friday 22 Aug at 2200UTC, but nothing on the following Monday. Maybe Marilyn will clarify what is happening in the Friday transmission.``

Ken Zichi says, ``It's disappointing -- I enjoyed the brief bits of English but it seems like they are having 'staffing issues' since Marilyn Q has been 'holding down the fort' by herself Since early July``

So is Amy on holiday, or gone for good? Does Marilyn ever mention her now? Somewhere on the website I spotted a joint portrait of Amy & Marilyn but can`t find it now. But here are Amy & Justin, when she started over 4 years ago: Glenn

``English Language Broadcast Panorama 07/01/2021 29:12
Today Justin Coe welcomes Amy Egan, our new colleague at the English-language Broadcast of Radio Exterior, and between the two of them they serve up a varied menu of Spanish popular music.``
https://www.rtve.es/play/audios/english-language-broadcast/english-language-broadcast-panorama-07-01-21/5754541/

Then Ron Howard found this: ``Hi Glenn,
"Radio Exterior - Marilyn Quintana | Amy Margaret Egan"
https://open.spotify.com/show/0V6MzanTYEWhKF5Uk0zKza
Ron, Monterey, Calif.``
(Glenn Hauser, OK, WOR)

** SPAIN. 17715, Aug 20 at 2205, REE S9+30/40 direct in Spanish, so as expected, no English anymore on Wednesdays; also on much weaker 15390 aimed Africally, and still absent from 15500 & 15520. Maybe Friday?

(Glenn Hauser, OK, WOR)

** TURKEY. 11785, Aug 15 at 2157, VOT not off the air, S9+10/20 direct vs high noise level, IS and ID in English (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, Aug 16 at 2233, VOT English not off the air, S9+30/45 during music into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11660.006+, Sun Aug 17 at 1701, VOT English with `Letterbox`, S9+20/30 into UTwente, but I still have trouble understanding everything, with some distortion. Initial comments on Ephesus, Virgin Mary, hostess years away from retirement. 1) Chris Campbell, Ohio, reads entire email including comments on Gaza/Israel; and follows suggestion to slow down speaking for better comprehension. 2) Annan?, Chat--, India, heard Urdu at 12-13 on 17580. 3) Jayanta Chakroborty, India. 4) Beijing China. 5) --jee, India. 6) BC Canada listening via SDR in Maryland. 1718 ``that`s it for today, 1719 theme outro (Glenn Hauser, OK, WOR)

** TURKEY. 11785.018-, Aug 18 at 2159, NO signal direct from VOT English; something`s always erroneous at Emirler. However, it`s on at next check 2207, S9+10/20 direct, must have come on how? late; and at 2225 into UTwente when measured during music, S9+35/45 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, Aug 19 at 2200, VOT English not off the air, S9+10/20 direct vs HSNL. At 2236 into UTwente when measured, S9+40/45 as Efsun voices some feature I can`t follow. 2253 s/off as if it`s 17620 at 1230, awry at Ankara. 2254 IS first 10 notes or so before chop*, no finesse. Something`s always erroneous at Emirler. About never mentioning any other English broadcast but the first one of the day at 1230 which is then played back several times: if they can`t or won`t give every English time and frequency, why not rotate them, one by one? That way, each broadcast would occasionally be accurately referred to at sign/on/off, rather than never unless it`s really the 1230 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, Aug 20 at 2204, no signal direct from VOT; something`s always erroneous at Emirler. However at next check 2215 it`s on, S9+10/20, YL talk - but NOT in English? Sounds like Turkish, think I heard ``burasi`` mentioned but unseemed in context of ID. At 2240 into UTwente when measured, S9+10/15, during music. 2241 brief non-English announcement. Just music. 2256 longer announcement, not a sign/off, music past 2300 with no time-signal but 2301 into M&W talk. 2317.7* finally chopped off. Don`t know whether to blame this anomaly on Ankara and/or Emirler (Glenn Hauser, OK, WOR)

** U S A. 251 kHz, Aug 14 at 0635 UT, JBA carrier: probably AM Amarillo TX, 100 watts as heard many times before. Also:
257 kHz, Aug 14 at 0635 UT, JBA carrier: probably JYR, York NE, 25 watts last logged Feb 21 (Glenn Hauser, OK, WOR)

** U S A. MW beacon bandscan, Aug 15 at 0633-0635 UT audiblizes a few benefiting from reduced noise level, heard before in better conditions:
356, ODX, Ord NE, 25 watts;
392, FMZ, Fairmont/Beklof NE, 25 watts - first heard tuned to 390 USB;
400, AHQ, Wahoo NE, 25 watts;
420, PK, Olathe/Herbb KS, 25 watts.
Overall, I tend to hear more of these from 2nd-adjacent state Nebraska, than first-adjacent Kansas (Glenn Hauser, OK, WOR)

** U S A. 326 MCW kHz, Aug 16 at 0642 UT, beacon MA is JBA, not heard for a longtime, 400 watts at MidlAnd TX (Glenn Hauser, OK, WOR)

** U S A. LW/MW beaconscan Aug 18 at 0444-0445 UT hits JBA carriers mainly with assumed IDs: 251 AM Amarillo TX, 293 FBY FairBurY NE, 332 IC wIChita KS, 407 HRU HeRington KS (Glenn Hauser, OK, WOR)

** U S A. 353 MCW kHz, Aug 18 at 0620, ND beacon LI, which is 400 watts from LIttle Rock AR. Haven`t heard this one since last logged March 7 (Glenn Hauser, OK, WOR)

** U S A. Haven`t heard any 10m beacons lately, but a few are making it Aug 15 at 2159-2206, with info from WGB list:

28225 CW, K5GJR/B: ``28224.5 K5GJR/B - Orange Grove TX USA EL17hr - #0 (15 Mar 2025) Note: ID + grid - A-99 vertical pwr 2.5w``

28215 CW, KA9SZX, with no /B, slow sending: ``28215.0 KA9SZX - Macomb IL USA  EN40pk - #0 (20 Feb 2024) Note: Ant Cushcraft CX-1000 pwr 3w``

28297 CW, NS9RC: ``28297.0 NS9RC - Highland Park IL USA EN62be - #0 (08 Apr 2025) Note: de ID + grid EEE - Half wave vertical pwr 5w - North Shore Radio Club``

All have been heard several times before. Which reminds me, have not heard K6FRC/B in a long time, used to be a strong regular signal on 28300 from Tracy CA, 100! watts. Nor the HIFER K6FRC on 13565 - LWCA https://www.lwca.net/sitepage/part15/index.htm says OFF TFN as of 7/2024.

Meanwhile a lot of CB channels were hopping with hets - how come no two CB transmitters are on-frequency? And one unID phone ham USB on 10m (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2307 monitoring: confirmed UT Thursday August 14 at 0130 on WRMI 5010, S7/S9 into Knoxville SDR.

Also confirmed Thursday August 14 from 1631 on SW Gold Radio, Germany, 6160.001, S9/+10 into UTwente.

WORLD OF RADIO 2308 contents: Australia, Brasil and non, China, Cuba, Finland, Germany, Indonesia, (Japan), Korea North & South, Myanmar, North America, Oklahoma, Romania, (Russia), Solomon Islands, Spain, Turkey, UK, USA; propagation outlook - (country mentioned along with other not in order)

2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks this week for financial support from Adrian Micallef, Marsa, Malta for a contribution not originally in US funds via PayPal to woradio at yahoo.com and says:
``I thank you for all the valuable work you do. I listen to most of your broadcasts and read all the e mails, I find them very useful. I listen every Saturday via WRMI 15770 kHz at 2230 UT; mostly it's fine reception here in Malta. Glad I can be of help. Thanks again for your work``

One may also contribute via money order or check on a US bank to:
Glenn Hauser, P O Box 1684, Enid OK 73702
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2308 monitoring: confirmed first SWBC, Friday August 15 at 1300 on WRMI 15770, as always JBA direct, S3/S4. But also:

``Friday 8/15/25 WRMI Broadcast 15770 khz --- Greeting Sir, I listened to your program this morning at about 1300Z-1330Z, RST 5/+20/9 with occasional QSB. Radios: Kenwood TS-440VAT, TS-440SAT, Xiegu G1M, and ATS-20 are shortwave capable. Antenna: 130ft NVIS on fence at 6 Ft. QTH: Currituck, NC. Thank you for your comprehensive shortwave station synopsis.

Though an amateur radio operator since the later 70’s, I’d rather listen than operate preferred CW mode most of the time. Was active in CA as WA6VTT, Midway Island as WH4AAB & KH4AC, Guam and continuing as KH2EE. I guess radio has been a big part of life. Starting as a kid with AM, and later FM, CB, and amateur radio since. Retired from US Navy as a Chief Radioman after 21 years plus service. Was a Navy MARS operator as NNN0AGM, and SOCAL broadcast station operator NNN0DBA before Homeland Security absorbed AFMARS, and Navy MARS program was sunsetted. Just a little radio background. Have a great day! Keep up the good work. Thank you sir. 73, KH2EE`` = Richard P West. More of his autobio at:
https://www.qrz.com/db/KH2EE

** U S A [and non]. WORLD OF RADIO 2308 monitoring: confirmed Friday August 15 at 2030 on IRRS SW via AM Italia, 1322.994+, S7/S8 into UTwente across Europe.

Also confirmed Friday August 15 at 2224 the 2200 on WRMI 9955, S9/+10 direct seems undermodulated.

Also confirmed Friday August 15 at 2237 the 2231 on SW Gold Radio, Germany, 3975.002-, S9/+10 into UTwente with storm crashes.

Also confirmed UT Saturday August 16 at 0300 on WTWW 5085, S8/9+10 into NH SDR, following Ancient Word Radio ID after `Truth2Ponder`, WTWW ID as 100,000 watts on 9475 & 5085, and ``You are listening to the ministry of...`` Cut to ``This is Glenn Hauser with World of Radio 2308...`` - all seemed fine but recheck at 0327 it`s already off the air, unknown when this happened or why; I`ve asked George.

Also confirmed Saturday August 16 at 1456 the 1430 on SW Gold Radio, Germany, 6160.000, S9 into UTwente.

Also confirmed Saturday August 16 at 1600 on WRN North America stream.

Also confirmed Saturday August 16 at 1730 on SW Gold Radio, Germany, 6160.000- S9 and 6 words later on 3975.001+ S9 but sounds weaker, into UTwente. Next:

1930vUT Saturday WA0RCR 1860-AM [1900/2100];

1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2306 monitoring: not confirmed Saturday August 16 at 1930v on WA0RCR, 1860 AM, MO, can`t get a readable daytime signal at the nearest remotes.

Confirmed Saturday August 16 after 1930 on WRN North America stream; and after 2000 on WRN Europe stream.

Also confirmed Saturday August 16 at 2100 on WRMI 9395, S7/S8 into N9AZZ IL remote.

Also confirmed Saturday August 16 at 2230 on WRMI 15770, S9+5/20 into UTwente.

Also confirmed Saturday August 16 at 2342 the 2330 on IRRS/IPAR/IRN/NEXUS/IBA webcast only.

Also confirmed UT Sunday August 17 at 0334 halfway into on WA0RCR, 1860 AM, MO, S9+5 into N9AZZ IL remote so started circa 0319; earlier, S9+10 direct but poorly audible in noise level.

Also confirmed Sunday August 17 at 1900 on IRRS SW via AM Italia, 1322.994+, S7 fading into noise S6. Next:

2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;

2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2308 monitoring: confirmed UT Tuesday August 19 at 0330 on WRMI 7780, S9+40/20 direct.

Also confirmed Tuesday August 19 at 1300 on WRMI 9955, S8/S9 direct.

Also confirmed Tuesday August 19 at 1403 the 1400 on WRMI 9955, S5/S8 JBA direct. Next:

2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2308 monitoring: ``From: Richard Lemke, Alberta, Canada, the desk of Richard’s listening Post, Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees, WRMI, World of Radio (#2308):
9455 kHz, S7 signal heard, 2330, static QRN, jingle yes heard, 2358, August 17 UTC 2025 [Sun]

9395 kHz, 2330, 2355, 2358 (S5) signal, static QRN, 2359, August 19 UTC 2025 [Tue]
(Lemke, Richard -AB)`` ?? I checked this and a preacher heard instead, no longer on sked, rather one hour later as below (gh)

Confirmed Tuesday August 19 at 2001 on IRRS SW via AM Italia, 1322.994, S9/+10 into nearby Noale SDR; after found to be JBA at UTwente. I also check 918 at Noale, and sounds like my voice JBA -- but a bit stronger, I`m not speaking English but Farsi or Arabic - mwlist shows 50 kW in Iran, 10 kW in Egypt, both 24h. Noale displays 917.988 and mwoffsets shows Egypt -10 Hz, no listing for Iran.

Also confirmed Tuesday August 19 at 2330 on SW Gold Radio, Germany, 3975.002-, S8/S9 into UTwente.

Also confirmed UT Wednesday August 20 at 0030 on WRMI 9395, S9+10 into Knoxville SDR, following `Blues Radio International``.

Also confirmed Wednesday August 20 at 1931 on SW Gold Radio, Germany, 6160.000-, S9+10 into UTwente, by recording. 3975.001+ also S9+10 at 2030 when checked with something else.

Also confirmed Wednesday August 20 at 2100 on WBCQ 7490 -95 Hz = 7489.905, S8/S5 into Maryland SDR. A gospel huxter, not the voice of BS, was chopped off at 2100 for ID and then WOR, so am not sure it`s still TOM.

Also confirmed Wednesday August 20 at 2330 on WRMI 9395, S9+10/20 into Knoxville SDR. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks this week for financial support from Adrian Micallef, Marsa, Malta with a contribution not originally in US funds via PayPal to woradio at yahoo.com

One may also contribute via money order or check on a US bank to:
Glenn Hauser, P O Box 1684, Enid OK 73702
(Glenn Hauser, OK, WOR)

** U S A. 5085, Aug 17 at 0135, WTWW S9+30/40 with JBA parasitic spurs plus/minus 12.8 kHz but no other spurs or splash. Off after 0300
(Glenn Hauser, OK, WOR)

** U S A. 5085, Aug 19 at 0633, WTWW is ON! S9+40/45, ``Ancient Word Radio`` with Bob Biermann, gospel music; also plus/minus 12.8 kHz JBA parasitic spur carriers but no splash or other spurs. 5920 is also on as usual overnight with TOMBS. But is 5085 going to remain all-night too? Had been closing at 0300* except UT Sat when trying to play WOR
(Glenn Hauser, OK, WOR)

** U S A. 5085, Aug 20 at 0626, WTWW is off, so last night around this hour was anomaly, test? (Glenn Hauser, OK, WOR)

** U S A. 9905/9945, Aug 20 at 2220, approx., span of splash from 9930 WTWW with TOMBS which is S9+40/50 (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Aug 15 at 2355: NO signals on 3265, 5130 or 6160; sometimes the 5 and 6 do cut on with IS & ID loop. 7490 at 0000 UT Sat Aug 16, WBCQ ID and into `WTO` theme; interjexions somewhat familiar, but no courtesy announcement that this would be a repeat. Then also on 9330. Finally mentions that ``today``, Zelenskyy was thrown out of the White House -- so it`s not the real today`s non-news about the Anchorage Summit, but from Feb 28! Yes, see my

report on that UT March 1; Never mind.

5130, UT Sat Aug 16 at 0058, this WBCQ is now on with IS & ID loop, an hour later than usual, -85 Hz = 5129.915, S9+10/20 into NH SDR, and 0100 `The Devil`s Advocate` which per websked is supposed to be at 0200-0300 UT Sats and on 6160, 7490 instead. SAWA (Glenn Hauser, OK, WOR)

** U S A. 7570, Aug 19 at 0630, this WRMI is OFF, contrary to schedule. Also anomalous, 7780 is stronger than 7730. This hour, all are supposed to be on System E with `Classic Redneck Radio`, along with 5800, 5850, 5950, 9455, 9955 which are on (Glenn Hauser, OK, WOR) WRMI: see also NETHERLANDS [non], SCOTLAND [non]

** U S A. 7570, Aug 20 at 0629, this WRMI-5 is off again contrary to schedule (Glenn Hauser, OK, WOR)

** U S A. 5890, Thu Aug 14 at 0655, S9+25 deadair except for some hum, from WWCR-4 which is supposed to be off all-night; last logged Aug 5 at 0653 which was Tue. Also reactivates leapfrog over 5935 onto 5980; and various spurs between 5880/5900. WWCR profits are way down, so burning juice for nothing is not a good business strategy. SAWA (Glenn Hauser, OK, WOR)

** U S A. 4840, UT Mon Aug 18 at 0447, WWCR-3 with inimitable voice of John Jurasek on VORW playing a music request. WWCR program grids now updated to Aug 11, but *still* with wrong CT/UT conversions! Showing this at 11 pm Sunday = 0500 UT Monday instead of 0400! (Glenn Hauser, OK, WOR)

** U S A. Re my WMLK logs: ``I logged them on both 15150 and 17525 Friday Midday Pacific time. It being daylight they initially both started out rather poor but did improve by sign off on 17525. But it is worth noting that they give out wildly inaccurate broadcast schedule information at sign off. To my ears it sounded like he said that 17525 was on the air from 1700 to 2200 UT. I also note that Elder Jacob O Meyer has been spewing some interesting conspiracy theories as of late. Black Helicopters and End Times and Last Days. I will admit however, that a segment he did several months ago about the history of the Mennonite people in that part of Pennsylvania was very very interesting. Tony Pavick, Hope BC`` (via Glenn Hauser, WOR)

** U S A. 17525, Aug 18 at 2203 DEJOM is still preaching on WMLK, S9+50! direct. Are they really aiming at Europe across mostly darkpath? All three frequencies are supposedly 300 kW at 53 degrees to CIRAFs 27, 28 and 39 = W & C Europe, Turkey, Arabia. Directly off the back 233 degrees would be close to thisaway (Glenn Hauser, OK, WOR)

** U S A. 17525, Aug 20 at 2206, WMLK is off again, nominally till 2230 (Glenn Hauser, OK, WOR)

** U S A. 15555 USB, Aug 19 at 2202, WJHR S9+10, signing off with email as WJHR@USA.com and ``Rock of Ages`` on chimes, nice till chop at 2203*. But then I detect a JBA carrier. I think WJHR is pure SSB, and nothing else listed on 15555 except China at 12-13 (Glenn Hauser, OK, WOR)

** U S A. 570, Aug 18 at 0625 UT, ``Kool 104.5``, soft rock, YL DJ. It`s KWML Las Cruces NM, U1 5000/155, UC:AC // mere translator K283CG per new NRC AM Log. Totally dominant, where`s KLIF? Suspect on day power. FCC LMS shows call sign history: KWML since 12/02/2014; before that, briefly KGRT from 02/04/2014, and before then from 10/02/2000 KSNM. But I`m trying to remember what it was in the XXth century when I briefly lived in LC - I think it was KGRT (Glenn Hauser, OK, WOR)

** U S A. 570, re last report: ``Glenn, the 570 in Las Cruces was longtime KGRT up until 2000, with a brief revival in 2014. In the 20th Century it was a daytimer with a very good groundwave signal, could hear it along I-40 driving through New Mexico. Stephen Luce, Houston, Texas`` (Glenn Hauser, OK, WOR)

** U S A. Correxion: the WREC translator is on 92.1, not 97.1 as I mistyped at first reference due to my indistinct scribble originally.

600 kHz, Aug 2 at 0635 UT, ``600 WREC and 92.1 FM``, back into C2CAM. The 600 I normally hear with C2CAM is WMT in IA, but no sign of it now. WMT major nightlobe goes SW thisaway, while WREC goes WNW/NW from Memphis. 92.1 is a mere translator, W221CR (Glenn Hauser, OK, WOR)

** U S A. 600 kHz, Aug 15 at 0629 UT, WMT ID during break in `Coast to Coast AM`, otherwise horrible CCI from another C2CAM station, way out of synch, maybe 20 seconds later, presumably WREC. C2CAM is a tolerable call-in talkshow with variety of topix and not totally far-right-political like `Red Eye Radio` (Glenn Hauser, OK, WOR)

** U S A. 770, Aug 15 at 0635 UT, `Red Eye Radio`, obviously KKOB Albuquerque NM, bigsig sounds like back to 50 kW and not notched thisaway toward WABC. Since a Fest balloon knocked down one of their towers in North Valley last year, has been on much reduced power and probably ND at night, which makes it much more audible thisaway.

Latest info via NRC DX News: ``Applications for CPs received:
770 KKOB NM Albuquerque – Applies for CP with U2 50000/5000, new site (co-located with
KTBL-1050 and KOAZ-1510) at 34-58-48.5, 106-44-16.2``
{but until approved and implemented, will KKOB still be running from the one ND tower left at original site?}

Per radio-locator, KTBL site is SSW of ABQ near Isleta Village Proper. Will they still need/operate that co-channel fill-in nighttimes in Santa Fe? At this hour, RER is always a split second behind neighbor 760 WJR (Glenn Hauser, OK, WOR)

** U S A. 780, UT Mon Aug 18 at 0640 on WBBM, a *new* StarDate. The UT Sun Aug 17 was a repeat of UT Sat Aug 16. Not obvious unless you remember and follow each, since WBBM deletes the *date* at the start of each show! (Glenn Hauser, OK, WOR)

** U S A. 780, Aug 19 at 0640 UT, WBBM continues with news, traffic and weather, skipping `StarDate` at what had been a reliable time for it. Canceled, moved or an anomaly? (Glenn Hauser, OK, WOR)

** U S A. 780, Aug 20 at 0640 UT, WBBM Chicago, again no sign of StarDate. Wonder if moved elsewhere on sked. WBBM websked shows no such details, and displays in UT like my computer without specifying! and what does StarDate own website show? ``Mon 12:41AM; Mon – Fri 3:41AM; Mon – Fri 9:41PM; Sat – Sun 8:41PM`` IIRC it never had it accurately as daily 1:40AM = CDT. I won`t be listening at 0841 or even 0840 UT (Glenn Hauser, OK, WOR)

** U S A. 900, Aug 18 at 0630 UT, ID as 95.3 and KF??.com: it`s KFUL Fulton MO, U1 1000/135, // mere translator K237GU, ``The Big 900`` -- imagine that! Still branding as AM rather than FM frequency. Fulton is just east of Columbia off I-70. There is one other 95.3/900 match, WCBX in Bassett VA, no way (Glenn Hauser, OK, WOR)

** U S A. 960 kHz, Aug 16 at 0705 UT in absence of local KGWA, somestation IDs as 101.7. The NRC AM Log and the WTFDA FM DB agree the only 960/101.7 match is: WSVU, North Palm Beach FL, U4 2400/1400, and

W269DS, Radio Elite International, Haitian! Of course an ID in English could still happen, but this still seems a bit far to be fetched. Sure wish I had heard some Kriyol to clinch it (Glenn Hauser, OK, WOR) BUT:

``KZIM is still // KSIM-1400 and K269GZ-101.7. Dave Gasque just posted an ID on Facebook the other day, and 101.7 was definitely mentioned along with both AMs. 73 Tim Hall`` (Glenn Hauser, OK, WOR)

** U S A. 960 kHz, Aug 16 at 0706 UT, in absence of local KGWA Enid, weather and ``River Radio`` ID. That`s KZIM Cape Girardeau MO, U2 5000/500 which I`ve heard before during KGWA when its air is merely dead (Glenn Hauser, OK, WOR)

** U S A. 990, Aug 18 at 0637 UT, 901 area code ad, `Mighty 9-90`` -- that`s KWAM Memphis TN, U4 10000/450. Of course I was trying to hear CBW; see CANADA. KWAM day pattern is about East/West; night pattern NW/SE per
https://radio-locator.com/cgi-bin/pat?call=KWAM&service=AM&h=N&z=i
and site just barely across the River in *Arkansas* (Glenn Hauser, OK, WOR)

** U S A. 1120 kHz, Thu Aug 14 at 0712, also before 0700, KMOX St Louis with very annoying talkhost I`ve run across before - always complaining about something. And then in bandscan I hear the same a few sex delayed on WCCO 830. Who is he? Checking the ``complete`` program skeds via Audacy. I see no match between KMOX and WCCO at those hours; in fact, WCCO has Twins baseball before and after midnight?! Then I realize that the skeds displayed are in UT! Wow, how convenient? That`s because my computer runs on UT. But station skeds should always be in local time of whatever unless explicitly labeled UT which would baffle most non-SWLs. There is a match for this:
KMOX 5-8 am The Other Side of Midnight, no host specified, but listening to opening sounds like ``Lionel``. And:
WCCO 5-9 am TOSOM with Frank Morano
Which is it? So beware, if you look up a program sked for any Audacy station, times will automatically match your computer clock (Glenn Hauser, OK, WOR)

** U S A. 1150, KSAL Salina KS another C2CAM, good signal nighttimes direxional thisaway but another C2CAM is almost synchro making it sound like a reverb. Last year`s NRC AM Log shows these possibilities: WNDB Daytona Beach FL, WJBO Bâton Rouge LA, KRMS Osage Beach MO, WIMA Lima OH, KAGO Klamath Falls OR, KQQQ Pullman WA, WHBY Kimberly WI, CKFR Kelowna BC. Same in new NRC AM Log just received, minus CKFR. I would go with 5 kW WJBO except it`s direxional E/W; or rather KRMS 840/55 watts, ND from middle of MO (Glenn Hauser, OK WOR)

** U S A. 1180, Aug 18 at 0637 UT, ``Infinity Sports Network``; new NRC AM Log shows the only 1180 ISR is: KZOT Bellevue NE, U4 25000/1000, address in Omaha. Radio-locator shows site is in IOWA, broad lobe favoring SW. Avoiding KOTV IBOC 1183 by LSB tuning (Glenn Hauser, OK, WOR)

** U S A. 1270, Aug 20 at 0725 UT, IDs as ``Faith, Leader?`` - NRC AM Log shows only one is ``Faith 1270``, KNWC Sioux Falls SD, U4 5000/2300 watts (Glenn Hauser, OK, WOR)

** U S A. 1370, Aug 18 at 0500 UT, ID as 98.7 FM and KWRD?.com - NRC AM Log shows KWRT Boonville MO, U1 1000/84 watts, also on 98.7 K254DE. Boonville is just west of Columbia in central MO near I-70 (Glenn Hauser, OK, WOR)

** U S A. 1450 kHz, Aug 14 at 0708 UT going from Fox `news` to Warrensburg weather, ``Goodtime Oldies, 1450 KOKO`` - that`s Missouri briefly atop graveyard, not too far from here (Glenn Hauser, OK, WOR)

** U S A. 1470, Aug 19 at 0648 UT mentions 102.7 FM. New NRC AM Log shows the only match is KDHN Dimmitt TX, U4 500/149 watts. WTFDA FMDB agrees, K274DG. Dimmitt is SW of Amarillo between Hereford & Earth (Glenn Hauser, OK, WOR)

** U S A. 1640 kHz, Aug 19 at 0646 UT, local KZLS Enid is OFF, audiblizing instead ``Relevant Radio`` which is WSJP Sussex WI = Milwaukee market. After all these years, why is the X-band still so sparsely populated? Only 5 stations total in USA on 1640. Could not many more be accommodated on the original plan of U1 10/1 kW? Meanwhile, many `regional` channels are crammed, not just graveyards (Glenn Hauser, OK, WOR)

** U S A. Re my FM DX report Aug 12: ``I'll bet your 95.1 is WRNS. Rick Shaftan, Rodanthe, Hatteras Island NC, FM25go`` - That is per WTFDA FMDB:
``WRNS-FM 95.1 KINSTON NC 100.0 kW 459.0 m 35-06-15 77-20-12 82F0 Your Country 95.1 WRNS Onlline {sic} at WRNS.com YOUR COUNTRY 95.1 WRNS 36950``
I guess he refer to my unID log at 1604 UT of C&W, rather than rock at 1557; later I had SC and FL stations on 95.1. But at the unID 95.1 hours I was not getting any other NCs. Kinston is south of Greenville & Grimesland in eastern NC (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Aug 14 at 0659, NO signal from R. Vanuatu; wonder if had just gone off for a QSY. Otherwise it`s always audible around this hour (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Aug 15 at 0548, JBA carrier, even weaker than the 7235 mystery. RV is back here, not heard on 9960 last night nor tonight. Ron Howard found it on 7260 at 0505 into NZ SDR. Zach Liangas says it changed again to 3945 after 0700 (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Aug 16 at 0635, RV JBA with music S6 = noise level (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Aug 17 at 0630, R. Vanuatu is JBA, still here; ex-9960 was much better for us (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 930, Aug 16 at 0716 UT, `C2CAM` // 940 KIXZ, 1040 WHO, etc. Too many 930 affiliates to speculate; but where`s WKY OKC? Maybe still on but lost in the pileup (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 990, Aug 16 at 0701 UT, CBS news, loops roughly E/W. New NRC AM Log shows the only CBS on 990 is WTIG Massilon OH, U4 250/112, also with ESPN. Certainly not enough to go on; I am checking for CBW Winnipeg which is due north and normally audible at night, but varies a lot due to QRM. See CANADA (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1090, Aug 17 at 0156, something in Spanish JBA vs 1080 KRLD IBOC noise on plus side of 1090. Probably KMXA Aurora CO at 50 kW daypower just before LSS at 0200 UT (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1190, Aug 17 at 0304 UT, Mexmx seems E/W-ish. Maybe KNUV Tolleson AZ, still on 5 kW day power, but it`s news/talk. Make that more likely XEPZ Ciudad Juárez, Grupera format, 1000/250 watts (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1320 kHz, Aug 19 at 0651 UT, repeatedly mentioning WLS.com for tickets to something, but not // 890. I guess a show originating there? In case it need to be near Chicago, suspects are: IL, Kankakee WKAN; WI, Wisconsin Rapids WFHR; MI Lansing & Marquette; none in IN (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1370, Aug 16 at 0653 UT, ``AYE AM & FM, your voice here in...`` partial ID, but I can`t find any fuzzily similar calls in the new NRC AM Log. Reverse lookup I try in WTFDA FM DB, searching on relay of: everything on 1370. Lots of them almost all translators, including K224FS of KLOE 1370 in Goodland KS. KLOE might qualify fuzzily, but trouble is, KLOE is really on 730!! O well (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1431.0 kHz, Aug 16 at 0651 UT, JBA het upon 1430 signals. Only significant transmitter on 1431 is 600 kW VOA/Sawa DJIBOUTI -- but not this late and besides is supposedly turned off. And when it was active, not in daytime between 02 and 16 per mwlist. In Asia/Pacific, nothing more than 10 kW in Australia, China, Japan, New Zealand, Thailand, and besides it`s way too early in daytime for any of those. So, more likely yet another CUBAn inexplicably transmitting +1 kHz. It`s not a modulated tone from somestation, since not also on 1429. However, mwlist and WRTH show NO Cuban on 1430, let alone 1431 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1431 kHz, Aug 17 at 0130 UT, that JBA carrier hetting 1430 again, also at 0300, and 0622; not Cuba nor Djibouti? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1469 kHz, Aug 18 at 0430 UT, JBA carrier hetting 1470s. Aha! same weakness on 1431 kHz which I have been hearing for several nights. No 9/kHz plan stations nor 1430 Cubans to account for it, but 1469 & 1431 imply that a *1450* station is putting out matching spurs plus/minus 19 kHz. There are only about 162 of those in US & Canada, plus a couple Mexicans. So, everyone, please check your radio for a local or daytime-audible 1450 which is spurring in this way. I normally bandscan at 10/kHz steps in USB, but this time I was doing it in LSB, thus hitting 1469 which I had missed before. Is there something in the circuity of AM transmitters which could account for 19 kHz spurs? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1431 & 1469 kHz, Aug 19 at 0644 UT, again the JBA carriers hetting 1430 & 1470 with 1-kHz pitch, suspected spurs out of some 1450 station exactly halfway between them. I`ve had zero replies to my request for local monitoring in order to locate source. I`m curious: has anyone even tried, without finding any? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6938 AM, Aug 18 at 0456, S9/+10 open carrier vs high noise level (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235, Aug 14 at 0657 still mystery JBA carrier; standard remarx (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235 AM, Aug 17 at 0138, JBA carrier, earlier than I have noticed it before. 40m above 7200 normally sparse is crammed with LSB hams, but none right on 7235; must be contest. Still there at 0630 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235, Aug 18 at 0457, JBA carrier still mystifying (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7259 CW, Aug 18 at 0458, slow CW, ham way out of CW subband? But just sending .- over and over = AAAAAAA. No 7260 Vanuatu audible yet (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9936, Aug 18 at 0510, S9/+10 open carrier with clix every 3 seconds, also detectable out to 9928/9948 approx., likely further with lower noise level. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11580, Aug 18 at 0513, noise roughly 11575-11585, sounds

like dirty DRM, but nonesuch listed, only ChiCom jamming and Sound of Hope. 11580 was once WRMI`s only 25mb frequency; why with 14 transmitters are they never on 25 any more? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 21495, Aug 18 at 2158, JBA carrier is the OSOB and consequently the SSOB. Nothing listed in Aoki, EiBi or HFCC (Glenn Hauser, OK, WOR)
